OFFICE OF
SEVIER RIVER
WATER COMMISSIONER

Richfield, Utah.
Feb. 6, 1940.

Mr. T. H. Humpherys,
Utah State Engineer,
Salt Lake City, Utah.

Dear Sir;

I herewith enclose a blue print of the fields or irrigated lands situated along Coyote Creek and irrigated thereby in Garfield County.

On this print I have shown the lands now irrigated but which were not irrigated at the time the plat was drawn. This land I have shown by cross hatching in red. Also I have shown some of the lands that are not now irrigated but which are shown to be irrigated at the time the plat was drawn. I also, show the present location of the ditch carrying water from the Bench Canal to the head of the Riddle Ditch under the purported agreement mentioned in my letter to you dated Dec. 28, 1940.

I am also enclosing the last mentioned letter above.

Very truly yours,

J. Lerne Ogden
Commissioner
